

To Whom It May Concern:

I am a 64 year old woman who drives great distances with some frequency. I benefit from listening to XM Satellite Radio and its traffic and weather channels, no matter where I happen to be driving, but particularly in the New York City area. Satellite radio provides variety and quality that are not available elsewhere, particluarly as I drive away from metropolitan areas. I pay a reasonable amount of maney for these services and it should not be up to the National Association of Broadcasters to dictate what I are permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that you demand and deserve. Thank you. Janice Boone
